

## Fan Menu

The Fan Menu implements an animated fan-like popup menu around the trigger button. You can configure the start and end angle, spacing and many other options. Menu items can either contain text or an icon. To display text, set the icon of the menu item to 'none'. The hamburger icon can also be animated.

### Icon

Specifies the icon animation of the trigger button.

### Start angle

Specifies the start angle (in degrees) of menu items. The default is 0.

### End angle

Specifies the end angle (in degrees) of menu items. The default is 180.

For example, if you want to create a menu like the one on right side. Then use start angle '80' and the end angle '190'.

### Spacing

Specifies the spacing between menu item (in degrees).

### Fan Size

Specifies the size of popup menu.

### Icon Size

Specifies the size of the main icon.

### z-index

Specifies the z-index. This makes sure the menu is on top of all other elements on the page.

### Fixed at bottom

The menu is normally positioned using an absolute position.

Enable this option to stick the menu at the bottom of the page.

**Top**

Specifies the offset of the text or icon.

**Background fill**

Specifies how much of the menu item will be filled with the background color.

**Icon Size**

Specifies the size of the menu icons.

**Font family / size / style**

Specifies the font style (when using text).

**Overlay**

Specifies the overlay background color and alpha. Set alpha to '0' to remove the overlay.

**Animation**

The menu supports the following animations:

- Slide
- Fade

**Duration** sets the length of the animation. **Easing** sets the timing of the animation.

***How to install this extension so it is available in WYSIWYG Web Builder?***

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:

My Documents\WYSIWYG Web Builder\system\extensions\
