

## Unite Gallery

This extension is based on the amazing Unite Gallery script (<http://unitegallery.net/>). Unite Gallery is a responsive jQuery image and video gallery plugin with support for images, YouTube, Vimeo, HTML5 video (mp4), Wistia and SoundCloud.

Unite Gallery supports hundreds of options, not all of them have been implemented in this extension, but you can easily add them yourself in the 'Extra options' section.

### Theme

Specifies the Unite Gallery theme. The theme controls the appearance and behavior of the gallery.

This extension has built-in support for the following themes:

- default
- compact
- carousel
- slider
- tiles
- tilesgrid
- grid
- video

### Skin

The skin specifies the theme variant. This option only applies to the 'video' theme.

### Animation

Specifies the type of animation: slide or fade.

### Duration

Specifies the duration of the animations in milliseconds.

### Lightbox type

Specifies the lightbox type: wide or compact.

### Enable Text Panel

Show or hide the text panel.

### Enable Play Button

Show or hide the play button.

### Enable Zoom Panel

Show or hide the zoom buttons.

### Enable Fullscreen button

Show or hide the fullscreen button.

### Enable Arrows

Show or hide the navigation arrows.

### Thumbnail Navigation

Enable this option to display thumbnail images at the bottom, left or right side of the gallery.

Note that not all themes have support for thumbnail navigation.

### **Extra Options**

Unite Gallery supports hundreds of options, not all of them have been implemented in this extension, but you can easily add them yourself in the 'Extra options' section. Each theme has its own options, you can learn more about these options on the Unite Gallery website.

For example, all options for the default them can be found here:

<http://unitegallery.net/index.php?page=default-options>

To change the text padding add this code:

**theme\_text\_padding\_left: 20**

multiple options should be separated by commas:

**gallery\_width:900, gallery\_height:500**

***How to install this extension so it is available in WYSIWYG Web Builder?***

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:

My Documents\WYSIWYG Web Builder\system\extensions\

***Requirements***

WYSIWYG Web Builder 12 or higher
