

Elastic Gallery Extension

This extension for WYSIWYG Web Builder lays out your images in a tidy grid of tiles that “stretch” outward when you hover or click—then gently snap back—giving a fun, bouncy effect. You can control how many tiles per row, the expand-and-compress speeds, spacing, scale factor, plus border and shadow styling to perfectly match your design.

Online demo:

<https://wysiwygwebbuilder.com/support/demos/elasticgallery.html>

Adding image

Click 'Add' to add a new image. Each image can have a thumbnail image, (optional) large, title and description. The image can either be a URL or a local file.

To add multiple images at once, hold down the SHIFT key while clicking the 'Add' button.

Tiles per row

How many image tiles to lay out in each row.

Expand factor

The percent scale (e.g. "150" → 1.5×) applied to a tile when it's activated.

Animation compress (ms)

How long (in milliseconds) the tile takes to shrink back to normal.

Tile margin

The gap (in pixels) between each tile.

Animation expand (ms)

How long (in milliseconds) the tile takes to grow when you hover or click.

Border

The border line's color and thickness (in pixels) around each tile.

Border radius

Corner roundness (in pixels) of each tile.

Shadow

The color, offset and blur radius of the drop-shadow behind each tile.

How to install this extension so it is available in WYSIWYG Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually, this folder is in this location:

My Documents\WYSIWYG Web Builder\system\extensions\

Requirements

WYSIWYG Web Builder 15 or higher
