

## Hover Slice Extension

A hover-activated mosaic that splits each image into rows/columns for a dynamic, 3D-style reveal effect.

Online demo:

<https://wysiwygwebbuilder.com/support/demos/hoverslice.html>

### Adding image

Click 'Add' to add a new image. Each image can have a thumbnail image, (optional) large, title and description. The image can either be a URL or a local file.

To add multiple images at once, hold down the SHIFT key while clicking the 'Add' button.

### Images per row

How many thumbnails (tiles) to show in each gallery row.

### Transition duration

How long (in ms) each tile-split animation takes when you hover.

### z-index

The stacking order offset applied to the expanded grid on hover (higher brings it to front).

### Easing

The CSS timing-function that controls the animation's acceleration curve.

**Width**

The base width of the hover-activated mosaic (e.g. "80vw" to span 80% of the viewport).

**Maximum width**

A hard pixel limit on how wide the hover image can grow.

**Rows**

Number of horizontal slices (rows) the image is split into.

**Columns**

Number of vertical slices (columns) the image is split into.

**Aspect Ratio**

The width-to-height ratio (e.g. "16 / 9") that the hover image container will maintain.

***How to install this extension so it is available in WYSIWYG Web Builder?***

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:

My Documents\WYSIWYG Web Builder\system\extensions\

***Requirements***

WYSIWYG Web Builder 15 or higher

***License Agreement***
