

Swing Gallery Extension

This extension for WYSIWYG Web Builder implements a 3D-style carousel that brings the active slide front-and-center—expanding its width and lifting it toward you—while its neighbors tilt and recede. With adjustable focus size, perspective depth, spacing, border styles, image filters and smooth easing, it delivers an interactive, “swinging” slideshow that feels tactile and dynamic.

Online demo:

Adding images

Click 'Add' to add a new image. To add multiple images at once, hold down the SHIFT-key on your keyboard while pressing the Add-button.

The images can either be a local path or a URL.

Focus width

Width (e.g. "10em") of the highlighted (clicked/keyboard-focused) slide.

Perspective

CSS 3D perspective distance (in px) that controls the "depth" effect on side panels.

Filter

Visual effect applied to non-focused slides (none, sepia, grayscale, blur, light/dark opacity).

Spacing

Gap (in px) between each slide.

Border width

Thickness (in px) of the outline around every slide.

Border color

Color of the slide border.

Border radius

Corner roundness (in px) applied to each slide.

Duration

How long (in ms) the hover/focus transition takes.

Easing

The CSS timing function (e.g. ease-in-out) that controls the animation's acceleration curve.

How to install this extension so it is available in WYSIWYG Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually, this folder is in this location:

My Documents\WYSIWYG Web Builder\system\extensions\

Requirements

WYSIWYG Web Builder 15 or higher
